EDUCATION

B.E CSE, Anuradha College Of Engineering & Technology, Chikhali	7.19/10 CGPA	2021 -2025
HSC Sahakar Vidya Mandir, Jalgaon (Jamod)	76.83%	2019 -2021
SSC The New Era High School, Jalgaon (Jamod)	74.20%	2018 -2019

CAREER OBJECTIVE

Entry-level **Java Full Stack Developer** with 6 months of internship experience and a strong foundation in Java, Spring Boot, SQL, and web technologies. Seeking an opportunity to grow skills while contributing to high-quality software solutions.

TECHNICAL SKILLS

Backend Technologies: Java, Spring Boot, REST APIs, Hibernate

Frontend Technologies: HTML5, CSS3, JavaScript, Bootstrap5, React.js

Database: MySQL, SQL

Tools & IDEs: Eclipse, IntelliJ IDEA, VS Code

Version Control: Git, GitHub

Web Services: RESTful APIs, JSON

Build & Server: Maven, Apache Tomcat

API Tools: Postman, Swagger

Operating Systems: Windows

Soft Skills: Team Collaboration, Problem-Solving, Critical Thinking, Quick Learner, Good Communication

INTERNSHIPS

Java Full Stack Developer Intern—Delfine Technology | Jan 2025 – June 2025

- Designed and developed full-stack web applications using **Java, Spring, Hibernate, and RESTful APIs**.
- Built responsive user interfaces using **HTML, CSS, JavaScript, Bootstrap, and React.js**.
- Implemented **MVC architecture** and optimized **SQL queries** for better performance.
- Collaborated in an **Agile development environment** and used **Git** for version control.

PROJECTS

Society Vehicle Management System (SVMS)

Technologies: Java, Spring Boot, Hibernate (JPA), REST APIs, MySQL, Swagger, Lombok, Maven, Postman

- Developed a backend-based Vehicle & Resident Management System to manage residents and their associated vehicles using Spring Boot.
- Implemented RESTful APIs for creating residents with multiple vehicles, fetching resident details, and managing vehicle records.
- Designed One-to-Many database relationships using Hibernate JPA with MySQL integration.
- Added input validation, auto-generated IDs, enum handling, and global exception handling for reliable API responses.
- Integrated Swagger (OpenAPI) for API documentation and testing.
- Implemented search functionality to retrieve resident details by name and vehicle registration number.
- Followed layered architecture (Controller, Service, Repository) and clean coding standards for scalability and maintainability.
- Performed API testing using Postman and fixed bugs during system testing phases

Furniture E-Commerce Web Application

Technologies: Java, Spring Boot, Hibernate, REST APIs, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed a full-stack Furniture E-Commerce web application with secure user authentication and role-based access.
- Implemented furniture product catalog, category-wise browsing, search, add-to-cart, and order management features.
- Designed and consumed RESTful APIs using Spring Boot and handled database operations with Hibernate and MySQL.
- Built responsive and user-friendly UI using HTML, CSS, JavaScript, and Bootstrap.
- Followed MVC architecture and applied clean coding standards for scalability and maintainability
